

We are looking for a  
Senior Software Architect (m/f/x)

Location: Antalya

Starting: at the next possible date

## WHERE YOU'LL BEAM UP TO:

THE FORCE builds companies for companies in the healthcare, pharmaceutical, and medical devices sector.

We encourage work in a flexible surrounding and as a diverse group when it comes to gender, nationality, religion, and ways of working. This unique culture is aimed to integrate employees and partners seamlessly into one organization.

Likewise, this organization shall easily adapt to customer organizations. Our unique way of operation will release THE FORCE to solve customer problems in a fast, effective, and efficient manner.

In all of this, people are and will be at the center of our attention, and the most valuable asset we have: People are our strength. They make us THE FORCE.

## THE SPACE YOU'LL HAVE TO PLAY TO YOUR OWN STRENGTHS:

- You don't feel like you're on a different planet when it comes to not necessary all, but some of the following technologies:
  - Backend frameworks (e.g. Spring, JakartaEE, MicroProfile, JPA, Hibernate, Container Techniques, Docker, Kubernetes, GIS, IoT)
  - Interfaces (e.g. REST, Messaging, Kafka, Flink)

- Database (e.g. J.B. scale, o/r-mapping, erm, oracle, myskel/mariadab, postgrescale, no-scale)
- Frontend frameworks, Java/Typescript frameworks (e.g. Angular, React, Vue, Svelte, Vaadin)
- Multi-layered and distributed architectures (e.g. client-server, microservices, hexagon)
- Cloud environments (e.g. AWS, Azure)
- Methods, modelling standards, and tool environments (e.g. Scrum, Kanban, UML, BPMN, generator approaches, DDD, test automation/ TDD, CI/ CD, DevOps)
- The use of development tools (IntelliJ, JUnit, Mockito, Git, Eclipse) is an integral part of your daily universe.
- You professionally steer build and integration tools (Maven, Gradle, Nexus).
- Continuous integration and deployment (Gitlab-CI, Github-CI, Jenkins) aren't unidentified objects to you in your day-to-day work.
- You will take the helm and lead our development team on site.

## THE LIFE FORM WE HOPE TO ENCOUNTER:

- A degree in computer science or comparable professional experience allows you a smooth launch.
- With at least 3 years of development experience, the Java environment or the JavaScript ecosystem aren't uncharted spheres for you.
- You like to apply your own critical thinking skills and to find solutions outside the limits of the ordinary realm.
- You can communicate technical issues to specialist departments in a way that doesn't make you sound like an alien.
- You boldly go into difficult situations and maintain track of priorities and project goals.
- You have an (inter)stellar command of the English language.
- For male candidates in Turkey, military duty should be completed.

## LET'S TURN THIS INTO MORE THAN AN ALTERNATIVE UNIVERSE:

This sounds much more like an opportunity than an abduction to you? Then send us your application directly via our application form.

Please note that we require all application documents in English.
