READY TO DIVE INTO NEW SPHERES?

We are looking for a

Programming & Computer Scientist (m/f/x)

Location: Antalya
Starting: at the next possible date

WHERE YOU'LL BEAM UP TO:

THE FORCE builds companies for companies in the healthcare, pharmaceutical, and medical devices sector.

We encourage work in a flexible surrounding and as a diverse group when it comes to gender, nationality, religion, and ways of working. This unique culture is aimed to integrate employees and partners seamlessly into one organization.

Likewise, this organization shall easily adapt to customer organizations. Our unique way of operation will release THE FORCE to solve customer problems in a fast, effective, and efficient manner.

In all of this, people are and will be at the center of our attention, and the most valuable asset we have: People are our strength. They make us THE FORCE.

THE GALAXY THAT INVITES YOU TO PLAY TO YOUR OWN STRENGTHS:

- You don't feel like you're on a different planet when it comes to not necessary all, but some of the following technologies:
  - YAML, HTML, PHP, MySQL, JavaScript, CSS
  - Database (e.g. J.B. scale, o/r-mapping, erm, oracle, myskel/mariadab, postgrescale, no-scale)

page 1 of 2

- – Frontend frameworks, Java/Typescript frameworks (e.g. Angular, React, Vue, Svelte, Vaadin)
- – Multi-layered and distributed architectures (e.g. client-server, microservices, hexagon)
- – Cloud environments (e.g. AWS, Azure)
- – Methods, modelling standards, and tool environments (e.g. Scrum, Kanban, UML, BPMN, generator approaches, DDD, test automation/ TDD, CI/ CD, DevOps)

- Using development tools (IntelliJ, JUnit, Mockito, Git, Eclipse) is an integral part of your daily universe.
- You professionally steer build and integration tools (Maven, Gradle, Nexus).
- Continuous integration and deployment (Gitlab-CI, Github-CI, Jenkins) aren't unidentified objects to you in your day-to-day work.

THE LIFE FORM WE HOPE TO ENCOUNTER:

- A degree or successfully completed vocational training in the IT sector, or a comparable degree allows you a smooth launch (a university degree in computer science or something similar would be an advantage).
- You have explored PC hardware, networks, security, and general technical processes at least on a basic level before.
- An analytical mindset as well as an independent and structured way of working are the fundamentals of your daily quest.
- You like to apply your own critical thinking skills and to find solutions outside the limits of the ordinary realm.
- You can communicate technical issues to specialist departments in a way that doesn't make you sound like an alien.
- You boldly go into difficult situations and maintain track of priorities and project goals.
- You have an (inter)stellar command of the English language.
- For male candidates in Turkey, military duty should be completed.

FIND YOUR NEW SPACE:

This sounds much more like an opportunity than an abduction to you? Then send us your application directly via our application form.

Please note that we require all application documents in English.
